

CORINNA RIGINOS

P.O. Box 12446 – Jackson, WY – (307)-413-2280 – criginos@gmail.com
www.corinnariginos.com

I work to understand and conserve areas of unique biodiversity through a combination of research, education, and close partnerships with natural resource managers. I have experience in a range of topics, including road ecology; large herbivore habitat selection patterns; rangeland management, monitoring, and restoration; and impacts of invasive species, land-use change, and climate change on natural systems.

EDUCATION

Ph.D. 2008 University of California, Davis: Ecology.
B.S. 2000 Brown University: Environmental Science (*Magna Cum Laude*)

APPOINTMENTS

Ecological Society of America Early Career Fellow (honorary) 2015-2019
One of a handful of early career ecologists chosen for their past and potential future contributions to the field in terms of scholarship, education, and conservation.

Research Associate July 2015-present
Northern Rockies Conservation Cooperative, Jackson, WY
Soft-money appointment

Research Associate October 2015-October 2016
Utah State University, Department of Wildland Resources

Adjunct Associate Professor April 2013-present
Department of Zoology and Physiology & Haub School for Environment and Natural Resources,
University of Wyoming, Laramie, WY

Research Ecologist, Teton Research Institute April 2013-April 2015
Teton Science Schools, Jackson, WY

Berry Biodiversity Conservation Center Postdoctoral Fellow June 2012-April 2013
University of Wyoming, Laramie, WY

Council on Science and Technology Postdoctoral Fellow Sept 2008-May 2012
Princeton University, Princeton, NJ

Doctoral Research Sept 2003-June 2008
Ecology Graduate Group, University of California, Davis, CA

Fulbright U.S. Student Scholar Aug 2000-Dec 2002
University of Stellenbosch, Stellenbosch, South Africa

FELLOWSHIPS AND AWARDS

- Shapiro Award for Academic Excellence (best dissertation thesis in ecology), UC Davis, 2009
- National Science Foundation Graduate Research Fellowship, 2003 (\$96,000)
- Graduate Scholars Fellowship, UC Davis, 2003 (\$32,000)
- Fulbright Fellowship, 2000 (\$20,000)
- Phi Beta Kappa, Brown University, 2000

GRANTS AND CONTRACTS

- Wyoming Department of Transportation: Effectiveness of reduced night-time speed limit in reducing wildlife-vehicle collisions. *PI.* 2016-2018 (\$250,000)
- Meg and Bert Raynes Wildlife Fund: For everything there is a season, but the seasons are a'changing. Phenology shifts in the Tetons. *PI.* 2016. (\$3,000)
- NSF Population and Community Ecology: Landscape-scale consequences of mutualism disruption: invasive ants threaten a widespread ant-plant mutualism in East Africa. *Co-PI and lead author.* (\$1,200,00)
- National Fish and Wildlife Foundation: Priority areas for reducing Golden eagle-vehicle mortalities. *PI.* 2016-2017 (\$102,000)
- Wyoming Department of Transportation: Traffic thresholds in deer-vehicle collisions. *PI.* 2016-2017 (\$38,000)
- Meg and Bert Raynes Wildlife Fund: For everything there is a season, but the seasons are a'changing. Phenology shifts in the Tetons. *PI.* 2015. (\$3,000)
- Wyoming Department of Transportation: Planning-support for mitigation of wildlife-vehicle collisions and highway impacts on migration routes in Wyoming. *PI.* 2014-16 (\$27,000)
- NSF Long-term Research in Environmental Biology: KLEE: Scaling up and scaling out at the Kenya Long-term Exclosure Experiment in Laikipia rangelands. *Lead author and Co-PI.* 2013-2018. (\$449,900)
- Livestock-Climate Change CRSP: A cost-effectiveness framework for landscape rehabilitation and carbon sequestration in northern Kenya. *Lead author and Co-PI.* 2010-2012. (\$80,000)
- USAID and Laikipia Wildlife Forum, Kenya: Sub-contract to provide training and support for rangeland monitoring and to develop a database for archiving monitoring data in Laikipia, Kenya. *Project Leader.* 2009-2012. (\$36,000)
- USAID and CARE International: Sub-contract to produce a monitoring manual for the Horn of Africa region. *Project Leader.* 2009-2010. (\$50,000)
- Princeton University Water, Savannas, and Society Initiative: Can simulated cattle migrations facilitate wild herbivores? *Lead author and Co-PI.* 2008-2011. (\$150,000)
- NSF Long-term Research in Environmental Biology: KLEE: Scaling up and scaling out at the Kenya Long-term Exclosure Experiment in Laikipia rangelands. *Co-author and Co-PI.* 2008-2013. (\$499,800)
- NSF International Research Fellowship Program: Can simulated cattle migrations facilitate wild herbivores? *Author and PI.* 2008-2010. (\$25,000)
- Phi Beta Kappa, Northern California Association. 2006. (\$5,000)
- NSF Doctoral Dissertation Improvement Grant: Tree-grass interactions in an East African savanna: the role of wild and domestic herbivores. 2005-2007. (\$12,000)
- Ben Madson Research Fellowship, Department of Plant Sciences, UC Davis. 2005. (\$2,000)
- Jastro-Shields Research Fellowship, Ecology Graduate Group, UC Davis. 2004, 2005, 2007. (\$2,500 each)

PEER-REVIEWED PUBLICATIONS

* Denotes paper authored with a student I have mentored or co-mentored

C. Riginos, L.M. Porensky, K.E. Veblen, and T.P. Young. Large-mammal herbivory promotes long-term compositional stability in a savanna understory plant community. *Ecological Applications*. In review.

Sensenig, R.L., D.K. Kimuyu, J.C.R. Guajardo, K.E. Veblen, **C. Riginos**, and T.P. Young. Species-specific ant behaviors help explain short-term and long-term shifts in an acacia ant community after fire. *Ecology*. In review.

Weinstein, S., G. Titcomb, V. Kobata, B. Agwanda, **C. Riginos**, and H. Young. Mechanism matters: predicting parasite response to defaunation in the African savanna. *Ecology*. In review.

Riginos, C., M.W. Graham, M.J. Davis, A. Johnson, A. May, K. Ryer, and L.E. Hall. Wildlife warning reflectors and white cloth reduce deer-vehicle collisions and risky behavior. *Wildlife Society Bulletin*. In review.

Herrick, J.E., J.W. Karl, S.E. McCord, M. Buenemann, **C. Riginos**, E. Courtright, J. Van Zee, A.C. Ganguli, J. Angerer, J.R. Brown, D.W. Kimiti, R. Saltzman, A. Beh, and B. Bestelmeyer. Two new mobile apps for rangeland inventory and monitoring by landowners and land managers. *Rangelands*. In press.

*Kimuyu, D., K. Veblen, **C. Riginos**, and T.P. Young. Cattle competition with grazing and browsing wildlife varies with season and presence of megaherbivores. *Ecological Applications*. In press, online at: <http://onlinelibrary.wiley.com/doi/10.1002/eap.1482/full>

Odadi, W.O., D.M. Kimuyu, R.L. Sensenig, K.E. Veblen, **C. Riginos**, and T.P. Young. Fire-induced negative responses of cattle to shared foraging with native ungulates in an African savanna. *Journal of Applied Ecology*. In press, online at: <http://onlinelibrary.wiley.com/doi/10.1111/1365-2664.12785/abstract>

*Kimiti, D.W., **C. Riginos**, and J. Belnap. Low-cost grass restoration using erosion barriers in a degraded African rangeland. *Restoration Ecology*. In press.

REPORTS

- Riginos, C.,** H. Copeland, C. Smith, H. Sawyer, K. Krasnow and T Hart. 2016. Planning-support for mitigation of wildlife-vehicle collisions and highway impacts on migration routes in Wyoming. FHWA-WY-16/10F.
- Riginos, C.,** M.W. Graham, C.S. Smith, M. Davis, and A. Johnson. 2015. Effects of wildlife warning reflectors (“deer delineators”) on wildlife-vehicle collisions in central Wyoming. FHWA-WY-15/03F.
- Riginos, C.,** and M. Newcomb. 2015. The coming climate: ecological and economic impacts of climate change on Teton County. Charture Institute and Teton Research Institute.
- Riginos, C.,** K. Krasnow, L.E. Hall, M. Graham, S.R. Sundaresan, D. Brimeyer, G. Fralick, and D. Wachob. 2013. Mule deer (*Odocoileus hemionus*) movement and habitat use patterns in relation to roadways in northwest Wyoming. FHWA-WY-13/08F.
- Riginos, C.,** E. Wakoli, D. Melly, and D. Kimiti. 2012. Restoration in Laikipia’s community lands: successes, challenges, and lessons learned. Report to the Laikipia Wildlife Forum and USAID.
- Riginos, C.,** J.E. Herrick and P. Shaver. 2012. Maximizing returns on investments in land management with ecological site information. Research Brief #6, Adapting Livestock Systems to Climate Change – Global Collaborative Research Support Program (USAID).
- Riginos, C.,** J. Belnap, and D. Kimiti. 2012. Cost effectiveness of simple technologies to reduce erosion and promote grass establishment. Research Brief #4, Adapting Livestock Systems to Climate Change – Global Collaborative Research Support Program (USAID).

TEACHING AND MENTORING

- Fellowship Coordinator, Wyoming Chapter of The Wildlife Society’s fellowship program (2014-2015)
- Mentored 8 students/interns (B.A.; 2 B.Sc.; 3 M.Sc.; 1 Ph.D.; senior thesis), 2008-2014.
- Instructor, ECOL 5620: Conservation and Management of Grazing Systems, University of Wyoming, Fall 2012.
- Instructor, EEB 320: Ecology and Conservation of African Landscapes, Princeton University, Spring semesters 2009-2012.

OUTREACH AND PROFESSIONAL SERVICE

Professional service

- Board Member At-Large, Wyoming Chapter of The Wildlife Society (2016-2018)
- Awards Committee, Shreve and Whittaker awards, Ecological Society of America (2016)

Public understanding of science

- Recent invited public presentations:
 - AMK Ranch Harlow Seminar Series, Jackson, WY, June 2016
 - Murie Center, Mardy’s Front Porch Conversation, Jackson, WY, July 2016
 - Impacts of Climate Change on the Tetons Area, Grand Teton National Park, Jackson, WY, October 2016
- Have given numerous other public presentations of research in Kenya and Wyoming
- Lead organizer of the Jackson Hole Wildlife Symposium, December 2014 (>150 participants)

- Founded and edited (2 years) the *Mpala Memos* newsletter of the Mpala Research Centre, for local stakeholders
- Authored 12 popular articles for stakeholders and the public in Kenya
- Research featured in prominent popular press (see above)

Outreach and partnership with land managers and development agencies

- Worked closely with the Wyoming Department of Transportation and Wyoming Game and Fish Department on design, analysis, and interpretation of three studies on wildlife-vehicle collisions
- Regularly advise Teton County Planning department on issues of roads and wildlife
- In collaboration with several NGOs and with funding from USAID, developed methods for simple, quantitative monitoring of rangeland health in East Africa
- Authored the guidebook *Monitoring Rangeland Health: A Guide for Pastoralist Communities and Other Land Managers in Eastern Africa* (published by USAID)
- These monitoring methods now being used by organizations with a footprint of 35,000 km² in Kenya and Namibia
- Have led numerous outreach workshops in Kenya and Ethiopia on rangeland monitoring

Capacity building

- Through this partnership, have supported, trained, and mentored six Kenyan post-bachelors and one post-masters students. All have gone on to more permanent employment or further study.
- Have also supported three groups of undergraduates (~40 each) from the University of Nairobi to visit field sites and research projects. Without such support, Kenyan students have very little exposure to field research.

Peer and editorial review

- Have reviewed >40 manuscripts and book chapters for *Ecology Letters*, *Ecology*, *Journal of Ecology*, *Journal of Arid Environments*, *Oecologia*, *Society and Natural Resources*, *Journal of Vegetation Science*, *Land Degradation and Development*, *Ecography*, *Forest Ecology and Management*, *Pastoralism* and *East African Journal of Natural History*
- Reviewer for Natural Research Foundation (South Africa) grant proposals'

OTHER SKILLS AND QUALIFICATIONS

- Proficient in variety of statistical methods including GLMMs, zero-inflated models, resource selection functions, structural equation modeling, and Brownian bridge movement modeling
- Software skills: R, ArcGIS, Access
- Trained in rangeland assessment (Interpreting Indicators of Rangeland Health), Jornada Experimental Range, November 2009
- Wilderness First Responder (current)
